**करिअर आणि स्पर्धा
परीक्षा मार्गदर्शन शिबिर**

नागभीड : चांगले भवितव्य घडवायचे असेल तर आपली मानसिकता बदलवावी लागेल. लढानवणापासून प्रत्येक क्षेत्रातील यशाचा पैसासोबत संबंध जोडत असल्याने स्पर्धा परीक्षेच्या तयारीकरिता ही मानसिकता अडसर होऊन बसते. चांगले भवितव्य घडवायचे असेल तर ही नकारात्मक मानसिकता झटकून कामाला लागणे लागेल. सोबतच कुठलेही काम मनापासून स्वयंस्फूर्तीने केले तर

त्या कामाचा कंटाळा येत नाही व ते काम तन्मयतेने केल्यामुळे सर्वोत्कृष्ट होऊन इच्छित ध्येय साध्य होते. स्पर्धा परीक्षेत यशस्वी होण्यासाठी इच्छाशक्ती, आत्मविश्वास आणि चिकाटी आवश्यक आहे,

असे मत हिस्लॉप कॉलेज नागपूर येथील प्रा. डॉ. आशीष कुमार झा यांनी केले.

राष्ट्रपिता महात्मा गांधी कला व विज्ञान महाविद्यालयात करिअर आणि स्पर्धा परीक्षा मार्गदर्शनपर

कोरपेनवार यांनी, सातत्य, संयम, चिकाटी आदी गुण आपल्यात निर्माण केले तरच आपण स्पर्धा परीक्षेत हमखास यशस्वी होऊ शकतो, असे सांगितले. विद्यार्थ्यांच्या उज्ज्वल भवितव्यासाठी स्पर्धा परीक्षेचे वर्षभर मोफत नियमित वर्ग सुरू करित असल्याचे सांगत त्यांनी या वर्गाचा लाभ घेण्याचे आवाहनही त्यांनी केले. कार्यक्रमाचे प्रास्ताविक डॉ. जी. डी. देशमुख यांनी केले. संचालन प्रा. चक्रधर भुरे यांनी तर आभार मधुर अमृतकर यांनी मानले. कार्यक्रमाला प्राध्यापकवृंद, शिक्षकेतर कर्मचारी व विद्यार्थ्यांची मोठ्या संख्येने उपस्थिती होती.

Objective of the Activity	India is blessed with rich and diverse heritage of cultural traditions. These traditions are associated with use of wild plants as medicinal herbs. The use of medicinal herbs is still a tradition adopted by ethnic communities. A medicine man or medicine woman is a traditional healer and spiritual leader who serve a community. Individual cultures have their own names, in their respective Indigenous languages, for the spiritual healers and ceremonial leaders in their particular cultures. This indigenous knowledge about plants is vanishing now due lack of awareness in local healers. In this context, workshop on Intellectual Property Rights has been organized in order to provide platform to traditional healers for marketing their products in collaboration with newly inaugurated Incubation Centre.

Objective of the Activity	Wetlands are important bird habitats and birds use them for breeding, nesting, and rearing young. Birds also use wetlands as a source of drinking water and for feeding, resting, shelter, and social interactions. Some waterfowl, such as grebes, ducks, geese have adapted to wetlands to such an extent that their survival as individual species depends on the availability of certain types of wetlands within their geographic range. Other species, such as the northern pintail or the American widgeon, use wetlands only during some parts of their lives. Wetland birds have been declining worldwide due to the habitat loss caused by the farming activities. Therefore, wetland restorations are practised worldwide in order to recover the habitat of wetland birds. In this context, Department of Zoology organizes Online webinar series with an aim to generate awareness among the students regarding diversity bird community in local area.
Brief Description	On 6 th and 7 th November, 2020, webinar series has been organized by the Department of Zoology to celebrate 'Bird Week' and with an objective to generate awareness about avifaunal diversity of the local area. In the 1 st session of day 1, webinar series was inaugurated at the hands Converner,

Wagh (Head of the Department of Zoology, Shivaji College, Amravati) working in the field of Ornithology for past many years was instrumental in propagating the message of Bird Conservation, in the capacity of Secretary of 'Maharashtra Pakshimitra', in his Keynote address entitled 'Wetland birds -Identification and Conservation', enlighten the students, about the diversity of winter migratory birds of the Vidharbha. In the afternoon session, Mr. Kiran More, another resource person, have a talk on topic entitled 'Grassland birds of Vidarbha' provide detailed information about diversity of Larks and Pipits. In the second day, Dr. Jayant Wadatkar (Prisident, Maharashtra Pakshimitra) have a talk on topic entitled 'All about owls'. In his talk, he gives information about the different species of owls and owlets of Melghat Tiger Reserve Forest, Maharashtra.</p>
<p>Outcomes/Impact of the Activity</p>	<p>Students get sensitized towards significance of birds as pollinators, biological pest control agent, and their role in maintenance of food chain. Objective of the Activity	The world’s first 2D material Graphene has been the subject of much research since it was first isolated at The University of Manchester in 2004, several decades after it was first discovered. It’s sort of the remarkable little cousin of graphite, better known as “pencil lead,” which is made from stacked layers of hexagonally arranged carbon atoms. Isolate just one of those layers, and you have graphene. It’s been called a “wonder material” thanks to its many unique properties. It’s ultra-lightweight, highly elastic, extremely flexible and so thin (a single atom in thickness, or one million times narrower than the diameter of a human hair) as to be nearly transparent – and yet it’s 200 times stronger than steel and the most impermeable material ever discovered.
Brief Description	Rashtrapita Mahatma Gandhi Arts and Science College, Nagbhid Organizes “ One Day National webinar on 10th November, 2020 ” regarding the topic “ Applications of Carbon Materials ”. The National webinar was chaired by Dr. Anil Korpenwar (Principal). The National webinar was

Objective of the Activity	Several thousand plant species grow in wetlands, ranging from mosses and grasses to shrubs and trees. Wetland plants play a major role by contributing in the food stuff to human being and providing shelters to different fauna. But along with diversity of native plants some invasive plants bow their toe in the mother earth and creating problems to the other flora and fauna. So, it is alarming signal to identify such invasive species. In this context, Department of Botany organizes online webinar with an aim to spread awareness among the students, researchers, academicians and society about the invasive flora and native plants of the wetland.
Brief Description	On 11th November, 2020 , Department of Botany organized online National Webinar on “The Outlook of Plant Science” with an objective to generate awareness about Invasive plants and Native wetland plants of Maharashtra. The Webinar was inaugurated at the hands Convener, honourable Principal, Dr. A.N. Korpenwar. In first session Dr. Sachin Punekar focussed on the invasive species specially their negative impact on surrounding environments, native Biodiversity, Ecology & Transmissions of diseases. He has

During the second session Dr. Shriram Bhuskute delivered talk on Wetland plants of Maharashtra with special reference to Gondia as most of the aquatic flora of Maharashtra is contributed by wetlands of Gondia District. He mentioned the need to reduce the human activities which is responsible for pollution so as to conserve wetland biodiversity.</p>
<p>Outcomes/Impact of the Activity</p>	<p>About 257 Participants from different part of India were registered and joined through Zoom and YouTube. The participants were sensitized regarding invasive species and their impact and significance of native wetland flora and their need of conservation. The identification of Invasive species is important so as to eradicate them from the environment. The participants were aware about the invasive species and activities carried out to eradicate them like, Weed bonfire before seed setting, Movements against Biological Invasions (MABI).</p>
