Title: Conservation of Traditional Medicinal Knowledge

Goals:

- To unravel generations-old hidden knowledge with traditional healers for the greater interest of community.
- Upliftment of the traditional Healers "Vaidus" from Chandrapur and Gadchiroli District.
- To Provide Platform for enriching the students traditional knowledge by the organization of Vaidu Sammelan.
- To organize the exhibition of Medicinal plants, Wild Vegetables and their recepies.
- To provide the platform for formulation of Healthcare products and IPR of Vaidus.
- To spread the traditional knowledge of Vaidus to the society.
- To create environmental consciousness and research attitude among students.

The Context:

Now a day's human beings facing so many side effects on their health due to use of allopathic medicines. To overcome these problems people are shifting towards age old proven Ayurvedic therapies. Eastern Vidarbha especially Chandrapur and Gadchiroli districts of Maharashtra are well renowned for their rich biodiversity. Local people use wild medicinal plants, vegetable on regular basis. In the modern world it has been realized that herbal drugs strengthen the body immune system specifically and selectively without side effects.

Nagbhid, Dist. Chandrapur

According to WHO about 80% of the raw materials for drugs used in Indian System of Medicine are based on plant products. The importance of traditional herbal medicinal system has now gained vital importance.

In this context, college undertakes different activities to unravel the treasure trove of ethnic local medicines with traditional healers for the welfare of humanity, and spreading their knowledge amongst the students and people.

Activity/Plan Implementation: Department of Botany and Incubation center of the college has organized Vaidu Sammelan, exhibition of wild medicinal plants, wild Vegetables and their recipes in collaboration with Forest Department, Gondwana University Gadchiroli and other organization which works in this field.

Taking into the consideration of efforts of college Gondwana University Gadchiroli has sanctioned incubation center at the college. Department of Incubation, Innovation & Linkages, Gondwana University Gadchiroli also sanctioned a Minor Research Project to the coordinator Dr. R. J. Rudey in the year 2019-2020 and advisor and subject expert of this project was Dr. Anil Korpenwar, Principal and Head, Department of Botany , RMG College Nagbhid. Visits were planned to all Talukas and interviewed tribal, traditional healers and documented the information about use of different plants for treatment of different diseases. The information was crosschecked and the crude formulation was converted into highly effective formulations by using modern technology in Incubation center. Eight products were sent to Food & Drugs Department of Government of Maharashtra for approval and out of eight our six products were approved. By taking help of third-party licensing way we manufactured those products from Ujwala Ayurvedashram MIDC Yavatmal (Maharashtra state). Recently these products were launched by the hands of Hon. Vice Chancellor Dr. Bokare and Dr. Suryawanshi, Assistant Director RARI Nagpur.

Products will be sold in the market and Royalty will be given to those healers who shared their formulations with us and shall protect their IPR. This way they will get handsome amount and their life will be uplifted.

Our proud products are

1. ‘Bhishmika Oil’ which is muscle relaxant also work on burns and other injuries.
2. ‘Innana Hair Oil’ works on hair fall and to keep the hair strong and healthy.
3. ‘ShatawariKalp’, the best tonic for women.
4. ‘Lyssomen’ best tonic and aphrodisiac product for men.

Officiating Principal
Rashtrapita Mahatma Gandhi
Art
Nagbhid, ...
e College,
Chandrapur

5. 'Renycurex' to keep kidneys healthy.
6. 'Herb-Boon' it is *kadha* powder which can be consumed by boiling in water like tea, it is very helpful to solve problems of digestion and takes care immunity.

The traditional healers had inherited knowledge about ethnic herbal medicine which is kept as secret for many generations hence they were very conservative to unravel.

Notes: This is only traditional college in our knowledge which has set an example that higher educational institutions also can be game changer for unemployment issue.

Output

- ◆ **Students** - The students have developed skill of observation, data collection. This has also imbibed a research temperament among them.
- ◆ **Teachers** - The teachers are oriented about the methodologies regarding the application of classroom knowledge in the field with inter-disciplinary approaches.
- ◆ **Locals** - The traditional knowledge of locals was explored and was entangled with the scientific domain to squeeze maximum out of it.
- ◆ **Researchers** - The documentation and formulations of local traditional healers knowledge provides novel avenues for researches.

Sub: Regarding Incubation Center.
Ref: Your Letter No. RMGC/513/2019 dtd. 11.09.2019.

Dear Sir,

With reference to the subject cited above, we are to inform you that as per the provisions specified in Maharashtra Public Universities Act'2016 under section 54(a) and (b). Hon'ble Vice Chancellor has permitted to establish and operate Ethno-medicine & herbal product based Incubation Center at your college with effect from 27th Sep'2019.

Herein we would like to mention that the given center shall undertake incubation of relevant and useful ideas such as product, process, service and innovation, relating to treatment of varied illness/diseases and health care in general, into a scalable mode so and such that shall lead to generation of enterprises by the incubates.

We do advise you for seeking all kinds of assistance including the financial one for achieving the specific objectives of the center through means of Central & State Govt. departments, Corporates, Private Funding agencies etc.

We wish you all the success for future innovations and endeavours.

Regards,

By the order of Hon'ble Vice-Chancellor
