## 1) Environment Cleanliness Drive

The students of Rashtrapita Mahatma Gandhi Arts and Science College, Nagbhid cleaned the campus of school through morning shramdaan. First the students cleaned the place. After that they took out all the garbage and separated wet garbage and dry garbage. Also chose a good place and threw away all that garbage. All the students poured water on the cleaned place and made the place very beautiful. He did such kind of work that anyone would praise him after seeing the work of all the students. The university showed all the attention of how cleanliness should be and how a student should work.

<b>Activity Report</b>	
<b>Session</b>	2021- 2022

## 2) Water conservation :-

The National Service Scheme Department of Rashtrapita Mahatma Gandhi College of Arts and Sciences, Nagbhid, organized the NSS Camp at Vasala Mendha under the guidance of Dr. Anil Korpenwar based on the concept of "Corona and Youth Power for Voting Awareness associated with the Azadi Ka Amrut Mahotsav". All the National Service Yojana students started building a dam near the lake at Vasla Mendha in the morning. The sarpanch of Mendha village Shri. Pandurangji Gaikwad was present on the spot.. National Service Scheme Program Officers Mr. Prachal Dhok and Mr. Kishor Borkar were also present. Villagers benefited a lot through this project. Due to the implementation of this project, the water problem of the people of the village has been solved.

**4) Mazi Vasundhara Pledge Activities :-** The Maharashtra environment and climate change department has begun the assessment of 395 urban local bodies (ULBs) and 304 panchayati raj institutions (PRIs) as part of its Majhi Vasundhara Abhiyan, launched last October. Over the next five-six weeks, the ULBs and PRIs will be evaluated through a two-step process to check their compliance with the tasks mandated under the initiative. These include enhancement of, green cover and biodiversity, building solid waste management infrastructure, taking steps for water conservation, improving energy efficiency, implementing awareness programmes and getting citizens to take the Majhi Vasundhara e-pledge to show their commitment towards protecting the environment. These tasks have been spread out over five broad indicators – vayu (air), bhumi (earth), jal (water), agni (energy) and akash (education and enhancement). “From last October to March 2021, the ULBs and PRIs were given six months to implement certain tasks, which overlap with the mandate of other state and central schemes, like Maharashtra’s Vanmahotsav plantation drive or the Centre’s Swachh Bharat Mission. For a fairer assessment, we are also considering steps that ULBs have taken within the ambit of the indicators between January 2021 and March 2022,” said a spokesperson with the environment department. The students of Rashtrapita Mahatma Gandhi Arts and Science College, Nagbhid have been participated online in this program and they have taken pledge regarding vasundhara saving and also downloaded the e certificate of the program.

## Policy Document on Clean and Green Campus of Rashtrapita Mahatma Gandhi Arts & Science College, Nagbhid

Rashtrapita Mahatma Gandhi Arts & Science college, Nagbhid has been founded by the great Gandhian follower late Wamanraoji Wanmali to serve the culturally diversified society, in the rural area of Chandrapur district of Maharashtra state of India with a strong belief that value based quality education is the best foundation for success in life.

The college has identified with the 17 UN Sustainable Development Goals (SDGs), representing globally perspective and is continuously striving to achieve them. We strongly believe that our concerted long term efforts would drive its significance at the local and regional levels. The goals are directed to reduce carbon footprints, energy consumption, waste management, and transforming the university landscape into a greener campus. We realize that as the world goes higher up the ladder of evolution and technological innovation, its development starts to consume the resources endowed upon by nature. The college has devoted its commitment to a sustainable future that is equal and resource-abundant for everyone. Being endowed with the power, to create a positive impact in society, we believe the initiatives that we undertake, would also enlighten our students, who would carry forward the practices of sustainability from their individual capacity and become ambassadors for change. To fulfill this vision, the college is obliged to institute a Clean and Green Policy as below

### Objective:-

- ✦ To impart understanding about the importance of environment in students and all stake holders and their accountability to take environment friendly initiatives to save environment.
- ✦ To work with all stake holders and the local community to raise awareness and seek the adoption of environmental good practice and the reduction of any adverse effects on the environment.
- ✦ To facilitate students, take small steps in protecting and conserving the environment and sustain natural resources within the campus.
- ✦ To work with all stakeholders and the local community to raise awareness and seek the adoption of environmental good practice and the reduction of any adverse effects on the environment.

- ✚ To facilitate students, take small steps in protecting and conserving the environment and sustain natural resources within the campus.
- ✚ To ensure judicious use of environmental resources to meet the needs and aspirations of the present and future generations.
- ✚ To integrate environmental concerns in to policies, plans and programmes for social development and outreach activities.
- ✚ To continuously improve our contribution to climate protection and adaptation to climate change and to the conservation of global resources.
- ✚ To audit and continuously improve the efficient use of all resources, including energy and water, and to reduce consumption and the amount of waste produced, recovering and recycling waste where possible.

**Scope of the Policy**

The Clean and Green Campus, Policies will incorporate co-curricular and extra-curricular practices that will encourage students to take the lead in creating positive change. These initiatives call for a thorough review of all infrastructural, administrative functions from the stand points of energy efficiency, sustainability and the environment. The focus areas will be as below:

1. **Clean Campus Initiatives:** RMG College Nagbhid (RMGC) will actively coordinate cleanliness activities in the college and beyond the campus in accordance in line with *Swachh Bharat Abhiyan*. The college will be generating mass awareness on cleanliness and hygiene amongst students and staff members by holding regular scheduled cleanliness drives. The idea is to motivate them to contribute in a proactive manner. Such activities will be core activities under NSS and other societies. Staff Members will also be encouraged to participate in such cleanliness drives. Events such as pledges, poster, slogans, essay writing, spoken word poetry, speeches, Rallies, skits on '*Swachh Bharat*' will be organized. The college will ensure regular removal of all kinds of waste material like broken furniture,

unusable/obsolete equipment etc. Students will be taken to Tadoba Wild Life Sanctuary and other adjoining forests to sensitize the students towards biodiversity and for showing ecological restoration of degraded soils.

2. **Waste Management processes:** RMGC strives to have a minimal impact on the environment and is dedicated to reduce and manage the waste generated by the college campus. The following specific procedures will be undertaken to ensure RMGC's contribution in protecting the environment. For **Solid Waste Management**, segregation into biodegradable and non-degradable and their proper disposal in line with Swachh Bharat initiative will be practiced. All over the campus blue and green dustbins are placed.
3. **E -Waste Management** the RMGC is grappling with ways to handle the issue of electronic waste (e-waste) efficiently and cost-effectively, on campus in environment friendly manner. For this purpose, the college plans to strive towards: Awareness amongst students about reduction of e-waste and environment friendly disposal practices for e-waste through department and society level activities pertaining to e-waste management.
4. **Rainwater water harvesting:** Rainwater recharge is gaining popularity as a sustainable water saving system in urban as well as rural areas. The college has installed rainwater recharge mechanism wherein the rainwater is accumulated from all the catchment areas and deposited for reuse. The water collected and directed to a deep pit of bore-well for later use. Even the ground water is directed towards the plants.
5. **Paperless Operating Procedure:** RMGC is striving towards a paperless office, a work environment in which the use of paper is eliminated or greatly reduced. This is done by converting documents and other papers into digital form, facilitate E-communication and use of public address systems reduces usage of paper in notices and circulars. In addition to going more paperless in the classrooms, wherein, notes, syllabus question banks, study material, assignments are stored and shared on the e-platforms, avoiding massive usage of paper. Reducing use of paper by supporting digitization of attendance and internal assessment records will be practiced. Also, attempt will be made to reduce requirement of printed books by updating the e-books and e-journals collection of the college library.
6. **Initiatives towards Landscaping by Gardening Committee and Eco Club:**  
Following activities will be undertaken
  - a. Planting of seasonal flowering plants
  - b. Maintaining Herbal Garden

- c. Regularly adding and maintaining medicinal plants in Herbal Garden
  - d. Practising Composting and utilizing manure produced for the maintenance of plants and involving students for awareness
7. **Ban on use of plastic:** Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. The staff and students are informed to use steel or copper water bottles instead of plastic bottles.
  8. **Air Pollution Management:** The College will conduct awareness programs for staff, students, and society for protecting and maintaining environment and air pollution management. The college also strictly prohibits smoking and the use of other tobacco products. "No Smoking, No Tobacco". Slogans/posters will be put up in prominent locations. Tobacco and associated substances are strictly prohibited in the college premises and is a punishable offence.
  9. **Green Audit:** The College will regularly conduct a Green Audit of our college campus to assess our strengths and weaknesses to further our goals of long-term sustainability. A green audit is a useful tool to determine how and where most energy or water or resources are being used.
  10. **Energy Audit:** An Energy Audit will be conducted on regular intervals to further reduce its carbon footprint. The importance of reducing energy consumption cannot be overstated. The energy audit, with its specialized tools will identify wastage of energy. Such an inspection often reveals several different flaws which cause a loss of significant amounts of energy which the college will not be able to detect. These flaws often have easy and affordable solutions and provide significant savings.
  11. **Restricted Entry of Automobiles:** Patterns of parking and driving around campus have significant effects on campus life and the environment at large. While it seems like a relatively small issue in the context of the operations of the College, reducing driving behavior fits within many of the other initiatives that the RMGC has set forth to achieve, such as the Sustainability Initiative and creating well-rounded citizens of the community at large. Activities to motivate the faculty and student to preferably use public transportation / shared transportation and the vehicles will be restricted till parking area.
