

# "National Webinar on the Occasion of Women's Equality Day"

## **Context –**

Women have been the ones who are doing so much work behind the scenes and are never credited for it. Our grandmothers, mothers and sisters play such an important and integral role in our lives and sadly they are reduced to just that and no one even value or appreciate them. Valuing them by empowering and paying head to their voices is very important. And this can be done by putting them in positions of power where they get to make decisions. Only then we will see real change and there will be growth.

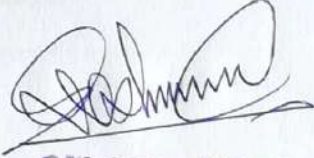

## **Practice –**

Madam communicated with girl's students and made them feel free to talk.

## **Outcome –**

**Context:-** The earliest purported Women's Day observance, called "National Woman's Day" was held on February 28, 1909, in New York City, organized by the Socialist Party of America at the suggestion of activist Theresa Malkiel. There have been claims that the day was commemorating a protest by women garment workers in New York on March 8, 1857, but researchers have alleged this to be a myth intended to detach International Women's Day from its socialist origin.

In August 1910, an International Socialist Women's Conference was organized ahead of the general meeting of the Socialist Second International in Copenhagen, Denmark. Inspired in part by the American socialists, German delegates Clara Zetkin, Käthe Duncker, Paula Thiede, and others proposed the establishment of an annual "Women's Day", although no date was specified. The 100 delegates, representing 17 countries, agreed with the idea as a strategy to promote equal rights, including women's suffrage.

The following year, on March 19, 1911, the first International Women's Day was marked by over a million people in Austria, Denmark, Germany, and Switzerland. In Austria-Hungary alone, there were 300 demonstrations, with women parading on the Ringstrasse in Vienna, carrying banners honoring the martyrs of the Paris Commune. Across Europe, women demanded the right to vote and to hold public office, and protested against employment sex discrimination.

IWD initially had no set date, though it was generally celebrated in late February or early March. Americans continued to observe "National Women's Day" on the last Sunday in February, while Russia observed International Women's Day for the first time in 1913, on the last Saturday in February (albeit based on the Julian calendar, as in the Gregorian calendar, the date was March 8). In 1914, International Women's Day was held on March 8 for the first time in Germany, possibly because that date was a Sunday. As elsewhere, Germany's observance was dedicated to women's right to vote, which German women did not win until 1918. Concurrently, there was a march in London in support of women's suffrage, during which Sylvia Pankhurst was arrested in front of Charing Cross station on her way to speak in Trafalgar Square.

**Practice:-** Rashtrapita Mahatma Gandhi Arts and Science Collage, Nagbhid ICC-POSH Organizes "One Day **National webinar** on 9<sup>th</sup> March 2021" on the occasion of "**International Women's Day 2021**". ## 1) Workshop on 'Hygiene measures during menstruation'

**Context** - Menstruation or menses is the natural bodily process of releasing blood and associated matter from the uterus through the vagina as part of the menstrual cycle. Menarche is the onset of menstruation, the time when a girl has her first menstrual period. In this part of rural India, Menstruation and menstrual practices are still clouded by taboos and socio-cultural restrictions resulting in adolescent girls remaining ignorant of the scientific facts and hygienic health practices, which sometimes result into adverse health outcomes. As our institution, located in the socio-economically backward region of eastern Vidarbha, adolescent rural girls succumb to many venereal diseases, on this pretext, it becomes imperative to organize one day workshop on hygiene measures to be taken during the time menses.

**Practice** – ICC-PUSH of institution, had organized Workshop on 'Hygiene measures during menstruation' for girl students on dated 6<sup>th</sup> August, 2019. In this workshop, Dr. Sharvari Rudey, Nagpur, had interacted with girls through thought provoking slides on PowerPoint presentation. At the beginning of program, documentary on the menstruation related problems was shown to the students. In this workshop 157 girl students participated.

**Sensitization** – Girls due to social taboo associated with menstruation, initially hesitate to express their feelings, but due to friendly interaction by the Dr. Sharvari Rudey, they feel free to express their views and try to understand the scientific facts related with menses and importance of hygiene measures to be taken. Latter on, in coming days, girl students educated in such workshop now acts as brand ambassador to propagate, the message of hygiene measures in community.

## 2) Awareness workshop on 'Malnutrition in rural girls' and health check-up camp

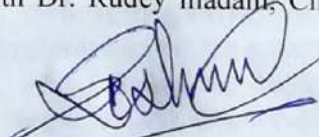

**Context** - The foundation of adequate growth and development is laid before birth, during childhood, and is followed during adolescence. Adolescents are the future generation of any country and their nutritional needs are critical for the well being of society. In rural India, a large number of adolescents suffer from chronic malnutrition and anemia, which adversely impacts their health and development. The high rate of malnutrition in girls not only contributes to increased morbidity and mortality associated with pregnancy and delivery, but also to increased risk of delivering low birth-weight babies. This contributes to the intergenerational cycle of malnutrition. Approximately 70% students in institution are girls, mostly from socio-economically underprivileged rural community, suffers from chronic malnutrition and anemia. Malnutrition poses a variety of threats to women. It weakens women's ability to survive childbirth, makes them more susceptible to infections, and leaves them with fewer reserves to recover from illness. On this context, ICC-PUSH of Institution in collaboration with Department of Integrated Child Development Services (ICDS), Nagbhid organized Workshop on malnutrition on dated 17<sup>th</sup> September, 2019 in order to bring awareness in undergraduate adolescent girls.

**Practice** – Program started with introductory speech of Dr. Rudey, chairperson of ICC-PUSH, in her speech, she has explained different physiological changes during the onset of menstruation in girls. Due to incremental growth during this period, need of body for macronutrients like proteins, vitamins and minerals increases many fold. Mr. Thombare Saheb, officer from ICDS Nagbhid, interacted with girls and give detailed information about different drives being implemented, which aimed towards alleviating malnutrition in rural adolescent girls. Many 'Asha Workers' working in different villages also participated in this programme. In this workshop, 245 students participated.

**Sensitization-** During the workshop girls feel sensitized towards importance of proper nutritional diet. They ask queries related with nutritional needs of body and few expresses themselves. Students after workshop, feel free to interact with Dr. Rudey madam, Chairman, ICC-PUSH, regarding their health related issues.

### 3) Celebration of International Women's Day

**Context** - International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political. In rural India, especially in the community where literacy rate is very low as compared to urban area, women are subjected to many inhuman treatment and they were denied gender equality. Our local community dominated by tribal's which is also reflects in the number of girls enrolled coming from this socio-economically backward class. In this context, birth anniversary of Social Worker, first female teacher of India, Savitribai Phule was celebrated as 'Mahila Mukti Din' which aimed towards inculcating the sense of gender equality among the college students.

**Practice** - On dated 8<sup>th</sup> March, 2020, ICC-PUSH of institution organized programme to celebrate 'Mahila Mukti Din'. It is presided by Dr. Sangita Revatkar, Mrs. Bhavana Tarvekar was the Chief Guest, Mrs. Nagpure, also present to address the gathering. Dr. R. J. Rudey, give introductory address, in which objective behind organization of this programme was elaborated. Students organizes street play on 'Gender Inequality', through which importance of literacy in womens was highlighted. In this workshop 203 girl students participated.

**Sensitization** - Approximately 80% of enrolled students are girls, hence sensitization of the students towards gender equality will definitely serves towards spreading this message in the community.
